

Weather & Flood Status

Penang & Kulim — 25 August 2026

Prepared by: arifOS Federation

Classification: Civic Intelligence — Internal Use

EXECUTIVE SUMMARY

No active flood warnings for Penang or Kulim as of 25 August 2026. Today brings isolated thunderstorms over Penang coastal areas this afternoon, clearing by evening. Haze remains at unhealthy levels across 30 areas nationally — N95 masks recommended for sensitive groups. Tropical Storm Narra advisory issued but track unclear. Aug 28-30 forecast shows clear weather window.

Current Conditions

No Active Flood Warnings

Penang and Kulim remain clear of active flood alerts. River systems stable. Last significant event: Kulim Sedim flash flood on 17 July — monitoring continues but no elevated risk today.

Isolated Thunderstorms — Penang Coastal

Afternoon thunderstorms expected over Penang coastal areas. Clearing by evening. No severe weather risk. Standard monsoon pattern.

Haze — Unhealthy Levels

30 areas nationally reporting unhealthy haze. Sensitive groups (asthma, elderly, children) should wear N95 masks outdoors. Monitor API readings via DOE portal.

Tropical Storm Narra Advisory

MMD has issued advisory for Tropical Storm Narra. Track uncertain — no direct impact expected on Peninsular Malaysia. Continue monitoring met.gov.my for updates.

7-Day Outlook

Clear Weather Window — Aug 28-30

Forecast shows clear skies and stable conditions from 28-30 August. Optimal window for outdoor activities, travel, or field work.

Civic Thermometer
