Executive Summary

Between January 2023 and August 2026, the PETRONAS holding-company (Petroliam Nasional Berhad) Board of Directors underwent **four discrete seat events per year on average**, with a heavy concentration in **January 2025** when three NINEDs were rotated out and the two newest INEDs were landed. The board shrank from roughly **twelve directors in early 2023** to **eight as of August 2026** — a deliberate consolidation around the PGCEO, COO/Upstream, GCFO triumvirate plus a tighter independent non-executive bench.

Three first-order events anchor the chronology:

1. **2023-01-05** — Two NINED departures (Asri Hamidin; Johan Mahmood Merican) the day the FY2022 books closed. Johan's resignation was later reversed (re-appointed in 2023, resigned again 2025-01-13).
2. **2025-01-13/19** — Coordinated NINED rotation: Shahrazat landed as MoF Inc. nominee; Johan and K.Y. Mustafa departed within six days of each other.
3. **2026-02-01** — **Mohd Jukris** brought onto the holding-company board as **Executive Director / COO**, re-establishing a COO seat that had been dormant since 2018. Concurrent with the Sarawak DGO gas-distribution-rights dispute reaching the Federal Court.

The most consequential continuity event is the **second contract extension of PGCEO Tengku Muhammad Taufik**, reported across Malaysian business media in August 2026 following the July 2026 expiry of his first three-year extension. Term length (2 vs 3 years) is disputed; PETRONAS officially declined to confirm.

Net change	−4 directors	Board shrank from ~12 → 8

Pattern Observations

1. **NINED churn is the dominant signal.** Five of the seven departures were non-independent non-executives (MoF Inc. / Khazanah nominees). Independent non-executive tenure is markedly more stable.
2. **January 2025 was a planned rotation**, not a crisis. Three NINEDs left within six days; one was replaced by a fresh MoF Inc. nominee; one was replaced by the sitting BNM Governor (a strategic independent seat, signalling regulatory depth on the board).
3. **Mohd Jukris's elevation to holding-company board** in February 2026 was the first time PETRONAS had a dedicated COO on the holding board since at least 2018. It coincides with the active **Sarawak DGO gas-distribution-rights dispute** at the Federal Court — a structural risk that may have prompted the re-establishment of the COO seat to consolidate upstream + HSE + security reporting under a single ED below the PGCEO.
4. **Taufik's tenure is now politically durable.** Two contract extensions in a 6-year span is unusual for a GLC of PETRONAS's scale; the August 2026 reporting was met with critical commentary (The Corporate Secret blog 2026-08-10) but no formal challenge.
5. **Information opacity is structural.** PETRONAS does not annotate mid-year director changes in its audited financial statements; gaps between annual reports create unavoidable UNK windows of 6–18 months. This is a recurring pattern, not a research failure.

Known Gaps (UNK — not fabricated)

- Exact 2023 departure dates for Ainul Azhar, Razali Mohd Yusof, Thayaparan Sangarapillai
- Exact Azizan Zakaria appointment date (bounded: between 28 Feb 2023 and end-FY2024)

- Exact Bakke Salleh reclassification date from NINED → INED (PIR2022 lists him NINED; live site lists INED)
- Exact Dato' Seri Abdul Rasheed Ghaffour appointment date (bounded: on/before 21 Mar 2025; confirmed on board by HKExNews filings of 21 Mar 2025 and 7 Apr 2025)
- Exact signed date and term length of Taufik's August 2026 second extension
