RUNTIME IDENTITY CONTRACT · V1.1

HERMES Runtime Manifest

Three receipts, not a portrait: derived build identity, instruction admission, memory metabolism.

generated 2026-10-23T05:21:15+00:00 · instance hermes-kvm8-asi · host forge · pid 373283

0. Defects (open first)

Every row carries the probe that decides it. FALSE_CLAIM exists so a wrong finding from another seat can be retired with evidence instead of argument.

id	severity	defect	status
D-01	HIGH	witness one-directional kvm8->kvm2=ESTABLISHED; kvm2->kvm8=ESTABLISHED	CLOSED
D-04	MEDIUM	probe-by-unit-name mis-describes a node local unit=active process_alive=True verdict=ALIVE	CLOSED
D-08	LOW	receipt compared a cross-surface total against a per-file cap per-surface verdicts now emitted; over-limit surfaces: none	CLOSED
BUDGET-MEMORY	LOW	MEMORY.md headroom 15810 chars vs limit 16000 (config.yaml memory.{user,memory}_char_limit) -> headroom +190	CLOSED
BUDGET-USER	LOW	USER.md headroom 9960 chars vs limit 11000 (config.yaml memory.{user,memory}_char_limit) -> headroom +1040	CLOSED
C-02	MEDIUM	SOUL.md differs between KVM8 and KVM2 and was called stale	FALSE_CLAIM

		kvm2 SOUL 7518 B sha 12066b546b6b6ccb role=EDGE_BRIDGE_AZWA ; kvm8 SOUL 05f11b575a3bcb49 sha	
D-02	MEDIUM	FED /health reported 5.7-7.1 s so 6 s clients record a false 000 local probe now: :7074 200 0.001385 (http time)	FALSE_CLAIM
D-05	LOW	tool count disagreed by one (442 vs 441) MCP-only enumeration: 21 servers with explicit include = 196 tools + 5 http servers measured live by tools/list (mermaid 1, parallel-search 2, wolfram 3, biohacking-kompakt 16, deepwiki 3) = 221 accounted. Unbound: zai_search (auth-gated), and 3 stdio servers. The harness figure 442 counts a wider scope than MCP tools alone, so the one-unit gap is a SCOPE difference until the harness publishes its own list.	PARTIAL
D-06	MEDIUM	manifest could not say which model served a turn alias=hermes-default models_used=['i-arif', 'deepseek-v4-flash', 'hermes-default'] scope=session + per-model usage	PARTIAL
C-10	MEDIUM	FQ quoted with no source or window kernel=0.090909090909090 91@2026-10-23T05:18:49Z arifflow=0.090909090909090 91 window=100	CLOSED
D-03	MEDIUM	stamp recorded bytes without mtime or sha all surfaces now emit {chars, bytes, sha256_16, mtime}	CLOSED

{'OPEN': 0, 'CLOSED': 7, 'FALSE_CLAIM': 2, 'STALE_MEASURED': 0, 'PARTIAL': 2, 'UNRESOLVED': 0}

1. Derived build identity

Read from the running process and its unit, not from a declaration.

exec_start_path	/usr/local/lib/hermes-agent/.hermes/bin/hermes
resolved_exe	/root/runtime/hermes/.hermes/tools/python-3.14.7+20260901-linux-x64/bin/python3.14
install_tree	/usr/local/lib/hermes-agent
install_tree_git_head	5e16f33277
install_tree_dirty	M plugins/platforms/telegram/adapter.py
editable_workspace_commit	1fa3f4c
declared_pyproject_version	0.0.0
declared_dist_metadata_version	0.21.1
started_at_local	Fri Oct 23 12:28:56 2026
uptime_seconds	3138
identity_status	VERIFIED_LOCAL
verification_scope	host forge only
independent_verification	False

> **Contradiction OPEN.** pyproject=0.0.0 vs dist-metadata=0.21.1. Neither is a build identity. Binding key = install_tree_git_head=5e16f33277 + artefact hashes above.

ARTEFACT HASHES (SHA256, FIRST 16)

hermes_constants.py	1bef6b1066658264
config.yaml	6b076d45b461e76f
USER.md	f1504cbc7d9b817a
MEMORY.md	545b7e3da061e217

2. Instruction admission receipt

admitted_chars_total	42402
cap_chars	32000

cap_source	journal telemetry
verdict	COMPLETE
telemetry_line	Context file AGENTS.md TRUNCATED: 43433 chars exceeds limit of 32000

SURFACES THE BUILDER MERGES INTO ONE TURN

Surface	chars	state
AGENTS.md (project context)	4026	COMPLETE
SOUL.md (voice)	8932	INJECTED
USER.md (identity)	9960	COMPLETE
MEMORY.md (env/lessons)	15810	COMPLETE
FEDERATION-INIT-v1 (plugin prompt)	3674	INJECTED

MANDATORY INVARIANTS, WITH PROVENANCE

Invariant	State	stated in
F13 human sovereignty	PRESENT	AGENTS.md (project context), SOUL.md (voice), USER.md (identity), MEMO
Fail-closed UNKNOWN/HOLD	PRESENT	AGENTS.md (project context), SOUL.md (voice), USER.md (identity), MEMO
Capability != authority	PRESENT	AGENTS.md (project context), FEDERATION-INIT-v1 (plugin prompt)
No agent self-SEAL	PRESENT	AGENTS.md (project context)
Proposer != judge != executor	PRESENT	AGENTS.md (project context), FEDERATION-INIT-v1 (plugin prompt)
Witness before mutation	PRESENT	AGENTS.md (project context), USER.md (identity), MEMORY.md (env/lesson
Representation(person) != person	PRESENT	AGENTS.md (project context), MEMORY.md (env/lessons)

AGENTS.md is an index of doctrine paths. The index being admitted does not prove the doctrine files behind those paths are read.

Invariants are tested across every injected surface, with provenance. A concept that exists only as a path inside AGENTS.md's doctrine index is NOT counted as stated; that distinction is the whole point of this receipt.

3. Memory metabolism receipt

File	before to after	budget	headroom	status
MEMORY.md	15810 to 15810	16000	190	PLAN_ONLY
USER.md	9960 to 9960	11000	1040	PLAN_ONLY

WHAT MOVED, AND WHERE

- plan mode: no move applied

ROLLBACK

- none needed

4. Floors as measured

active	13
floor_passed	False
fq	0.09090909090909091
fq_measured_at	2026-10-23T05:18:49Z
pass	["F11", "F12", "F13", "F2", "F3", "F4", "F5", "F7", "F9"]
fail	["F1", "F8"]
unmeasured	["F10", "F6"]

5. Capability surface

declared	30
reachable_http	22
stdio_present	8
callable_verified	UNKNOWN
note	reachability is not capability; no read-only canary map is claimed in v1.1

6. Cron

configured	33
enabled	32
with_last_error	0
errors	[]

7. Memory profiles (referent check)

One tree, several profiles, separate memory sets. Root symlinks both resolve to /root/runtime/hermes/.hermes.

Profile	chars	geo anchor	resolved facts
default (root memories)	9960	PRESENT	PRESENT
aaa-hermes	1777	PRESENT	PRESENT
default	-	ABSENT	ABSENT
hermes_apex	3237	PRESENT	PRESENT
hermes_asi	3237	PRESENT	PRESENT
hermes_forge	3237	PRESENT	PRESENT

8. Body, witness, FQ scope, model transport

body	{"host": "forge", "unit_state": "active", "unit_mainpid": "373283", "process_alive": true, "process_pid": "373283", "ports": {"8088": "200 0.003486", "7074": "200 0.001385", "18087": "200 0.002121"}, "verdict": "ALIVE", "note": "verdict follows the PROCESS, not the unit name"}

fq_scope	{"canonical_source": "arifFlow :7073 (producer); kernel :8088 re-exports it", "upstream_formula": "minimum_gated_harmonic_mean", "window_size": 100, "scope": "federation", "kernel_reported_value": 0.09090909090909091, "kernel_reported_measured_at": "2026-10-23T05:18:49Z", "arifflow_reported_value": 0.09090909090909091, "arifflow_raw_pool": 1.0465116279069768, "arifflow_sample_size": 100, "drift_note": "a quotient that moves between probes is not a contradiction; it is a moving quantity. Compare only same-source

	same-timestamp readings, and quote the window with every number."}
model_transport	{"alias_requested": "hermes-default", "provider_recorded": "custom", "session": "20261023_125038_8ea413", "models_actually_used": [{"model": "i-arif", "provider": "custom", "in_tokens": 832935779, "out_tokens": 72298528}, {"model": "deepseek-v4-flash", "provider": "custom", "in_tokens": 656894669, "out_tokens": 2486028}, {"model": "hermes-default", "provider": "custom", "in_tokens": 389253975, "out_tokens": 48151559}, {"model": "glm-5.3", "provider": "custom", "in_tokens": 178779051, "out_tokens": 980262}, {"model": "forge-777", "provider": "custom", "in_tokens": 76980018, "out_tokens": 500431}, {"model": "agi-333", "provider": "custom", "in_tokens": 34548975, "out_tokens": 3502090}], "resolution_scope": "session + per-model usage", "per_turn_resolution": "NOT RETAINED", "note": "an alias in the session row and a concrete model in usage means resolution happens at the router. To bind model-per-turn, the proxy must emit x-model-resolved into the turn receipt; the data exists one level up."}

9. Delta

previous	manifest-20261023T052058+0000.json
status	COMPARED
counts	{"ADDED": 0, "REMOVED": 12, "CHANGED": 8, "REGRESSED": 0, "RECOVERED": 0}

10. Readiness ladder

Axis	State
IDENTITY	VERIFIED_LOCAL
OBSERVATION	READY
ATTENTION	READY_WITH_LIMITS
PROPOSAL	READY_WITH_LIMITS
VERIFICATION	PARTIAL
JUDGMENT	DEGRADED
EXECUTION	NOT_ESTABLISHED_BY_THIS_MANIFEST
INDEPENDENT_WITNESS	NOT_PRESENT
memory_headroom_restored	TRUE

build_contradiction	OPEN
admission_verdict	COMPLETE

11. Non-claims

- No claim of AGI, ASI, certification, or institutional readiness.
- Identity is verified **locally on this host only**. Independent witness is absent.
- Reachability is not capability. No MCP tool is marked `callable_verified` here.
- This document is generated. Nothing in it was edited by hand after render.
